Dear American Society of Health Economists:

We welcome you to the Fifth Biennial Conference of the American Society of Health Economists, hosted by the Schaeffer Center for Health Policy and Economics at the University of Southern California. Many people have worked diligently to convene this unique forum where health economists and thought-leaders can share cutting-edge research and ideas.

This year’s conference, *Health and Healthcare in America: From Economics to Policy*, was selected as the theme because research that impacts health policy lies at the heart of the Schaeffer Center’s mission. We have invited many prominent health economists to showcase this transformation – including a plenary session with Peter Orszag, Casey Mulligan, and Sarah Kliff to debate the Affordable Care Act.

We hope this conference--with the collaborative relationships it forges and the discussions it encourages--will continue to advance the field of health economics and make it even more relevant. But, as we like to say, you don’t have to be serious to be serious. While you are here, we want you to also enjoy all that Los Angeles has to offer. From the Walt Disney Concert Hall to the Griffith Park Observatory and the Southern California beaches, we are sure you will find ways to enjoy yourself while you enrich your mind.

We look forward to seeing you.

Sincerely,

Dear Members and Friends of the American Society of Health Economists:

On behalf of the USC Sol Price School of Public Policy and the USC School of Pharmacy, we would like to welcome you to the University Park Campus. We are honored that the Leonard D. Schaeffer Center for Health Policy & Economics, a unique collaboration of our two schools, has been chosen to host this timely and important conference on Health and Healthcare in America: From Economics to Policy.

Since its inception in 2009, the Schaeffer Center has quickly grown to become one of the premier centers for health policy in the country. The Schaeffer Center’s mission is to measurably improve value in health through evidence based policy solutions, research excellence, transformative education, and private and public sector engagement. Built on an interdisciplinary foundation, the Schaeffer Center has brought more than 20 distinguished scholars and faculty with appointments across USC together to discover opportunities to increase value in health care markets and delivery; improve health outcomes for an aging society; and foster better pharmaceutical policy and regulation through data-driven, interdisciplinary research.

With that spirit of bringing great minds together to delve into health care’s great challenges, we look forward to hosting you and your colleagues in the days ahead. We encourage you to make the most of what the Schaeffer Center and this conference have to offer; we are sure that we will see the fruits of the discussions borne from this conference in the policy solutions of tomorrow.

Sincerely,

Jack H. Knott                                      R. Pete Vanderveen

I would like to welcome each of you to the Fifth Biennial Conference of the American Society of Health Economists (ASHEcon), hosted by the Schaeffer Center for Health Policy & Economics at the University of Southern California! The mission of ASHEcon continues to be to promote excellence in health economics research and to provide a forum for emerging ideas and both empirical and theoretical results of health economics research. Historically the biennial conferences are the primary activity through which we achieve this mission, though you will be hearing much more this year about our new journal, which will launch in print early in 2015, the *American Journal of Health Economics*. *AJHE* is a great place to consider sending your work to after presenting it at the conference!

Once again we have a packed schedule. Fifteen concurrent sessions and more than 500 papers will be presented and over 150 posters will be on display. There will be three plenary sessions, starting Sunday evening with former CBO chief Peter Orszag and University of Chicago economist Casey Mulligan discussing aspects of the Affordable Care Act (also known as the Health Economist Full Employment Act), moderated by Sarah Kliff currently of Vox Media. The second plenary in the noon hour on Tuesday will involve a discussion on how insights from behavioral economics can influence provider and patient behavior to improve care. Finally, Tuesday evening will feature a roundtable discussion on payment reform by the four scholars occupying Leonard D. Schaeffer endowed chairs of health policy throughout the nation—Dana Goldman (USC), Michael Chernew (Harvard), Alice Rivlin (Brookings), and Jamie Robinson—introduced by none other than Leonard D. Schaeffer himself. The Victor Fuchs Lifetime Achievement Award, the ASHEcon Medal, and the Student Paper Award will also be presented Tuesday evening. Frank Sloan will give the presidential address during the noon hour on Monday. The member business meeting will be held after the concurrent sessions on Wednesday at 1:30 p.m.

Ample opportunities are provided for the 700+ in attendance to network with colleagues throughout the conference and at breaks, receptions and meals. The venue at the USC provides an excellent location for the conference. Concurrent session rooms are located in close proximity to one another. In addition, we hope you will have time to enjoy all that Los Angeles has to offer!

A motivating principle of ASHEcon is “inclusion.” I believe this is accomplished at this conference. Participants range from senior health economists to students, local to international, and come from academe, government and industry. The planning committee has made significant efforts to provide sessions and workshops on a broad range of topics. Everyone should be able to find topics that are of interest.

Special thanks go to the Planning Committee chaired by President Elect Mark Pauly, the Chair of the Local Organizing Committee, Dana Goldman, President Frank Sloan, the scientific committee, the sponsors of this conference listed in this program, and to the University of Southern California for graciously hosting this conference. Many people provided very valuable behind the scene assistance. Neeraj Sood was indispensable throughout the process of planning and organizing the conference. We thank the outstanding and tireless work of Schaeffer Center staff including Devin Stambler, Assistant Director of External Affairs, Sadena Thevarajah, Director of External Affairs, Eddie Kouyoumdjian, Special Consultant, Stephanie Hedt, Project Coordinator, and Jacklyn Mancilla, Administrative Assistant. And of course we thank ASHEcon Associate Director Charmaine Wright for all her work coordinating the many tasks associated with planning and operating a conference of this size. I owe much gratitude to ASHEcon President Frank Sloan, President-Elect Mark Pauly, the officers, board and staff of ASHEcon, for many hours of service devoted to planning this conference and to the overall operation of ASHEcon.

We hope this conference achieves all of your expectations. Please be sure to fill out the online evaluation survey to assist us in planning of future conferences.

Warm Regards,

Tony Lo Sasso
Executive Director

Dear American Society of Health Economists,

On behalf of the academic community of the University of Southern California (USC), I would like to welcome each of you to our university. We are pleased that the American Society of Health Economists has chosen the Leonard D. Schaeffer Center for Health Policy and Economics at USC to host the Fifth Biennial Conference of the American Society of Health Economists, Health and Healthcare in America: From Economics to Policy.

USC is one of the world’s leading private research universities, and we are indeed proud to play a major role in the ongoing healthcare dialogue. The Schaeffer Center, led by one of our transformative faculty members, Professor Dana Goldman, provides timely, relevant health economics research to the policy conversation; the center epitomizes USC’s vision of creating scholarship with genuine consequence. To this end, the Schaeffer Center collaborates with other exceptional programs at USC—such as our Dornsife College of Letters, Arts and Sciences; Annenberg School for Communication and Journalism; and School of Cinematic Arts—to inform the center’s work and broaden the reach of its research findings. The center also has crucial ties to the Keck Medical Center of USC, including the USC Norris Cancer Hospital, which has advanced best practices within the industry and has been recognized both nationally and internationally for its state-of-the-art services and research.

I firmly believe that Los Angeles is the ideal setting in which to enhance our understanding of healthcare, one of the grand challenges of our day. With the implementation of the Patient Protection and Affordable Care Act, the role of a congruent and interactive healthcare industry has never been more important. And Los Angeles—with its world-class hospitals, healthcare initiatives, and diverse patient population—is clearly positioned at the center of this conversation.

This is the ideal time for such an esteemed society to hold its biennial conference in Los Angeles and at USC. I am certain your time with us will be productive.

Sincerely,

C. L. Max Nikias

2014 AWARDS

**VICTOR R. FUCHS AWARD: JOSEPH NEWHOUSE**

Dr. Newhouse is the John D. MacArthur Professor of Health Policy and Management at Harvard University, Director of the Division of Health Policy Research and Education, chair of the Committee on Higher Degrees in Health Policy, and Director of the Interfaculty Initiative in Health Policy. He is a member of the faculties of the John F. Kennedy School of Government, the Harvard Medical School, the Harvard School of Public Health, and the Faculty of Arts and Sciences, as well as a Faculty Research Associate of the National Bureau of Economic Research. He received B.A. and Ph.D. degrees in Economics from Harvard University. Following his Bachelor’s degree, he was a Fulbright Scholar in Germany. Dr. Newhouse spent the first twenty years of his career at RAND, where he designed and directed the RAND Health Insurance Experiment, which studied the consequences of different ways of financing medical services. From 1981 to 1985 he was Head of the RAND Economics Department.

**ASHECON MEDAL: AMY FINKELSTEIN**

Amy Finkelstein is the Ford Professor of Economics at the Massachusetts Institute of Technology. She is the co-Scientific Director of J-PAL North America, a research center at MIT designed to encourage and facilitate randomized evaluations of important domestic policy issues. She is also the co-Director of the Public Economics Program at the National Bureau of Economic Research, a member of the Institute of Medicine and the American Academy of Arts and Sciences, and a Fellow of the Econometric Society. She has received numerous awards and fellowships including the John Bates Clark Medal (2012), given annually to the economist under the age of 40 who is judged to have made the most significant contribution to economic thought and knowledge.

**STUDENT PAPER AWARD: ALICE CHEN**

Alice Chen is a health economist whose research focuses on the interactions between health insurance, access to care, and labor markets. Her research examines how physicians respond to changes in Medicaid payment and eligibility, and her work has been published in the *Journal of Health Economics*. Current projects include studies of infant mortality in the U.S. relative to Europe, returns to Medicare expenditures, and the impact of changes in health and leisure on measures of inequality. Prior to earning her PhD in economics from the University of Chicago, Booth School of Business, Alice graduated with a BS and SM in applied math from Harvard. This fall, she will join the University of Southern California, Price School of Public Policy as an Assistant Professor.

AWARD INFORMATION

**VICTOR R. FUCHS AWARD FOR LIFETIME CONTRIBUTIONS TO THE FIELD OF HEALTH ECONOMICS**

**DESCRIPTION:** The Victor R. Fuchs Award for Lifetime Contributions to the Field of Health Economics is awarded biennially to an economist who has made significant lifetime contributions to the field of health economics.

**ELIGIBILITY:** Recipients must hold their primary appointment (or be emeritus or retired) at an institution based in the United States, but need not be United States citizens. As a condition of receiving this honor, the recipient must attend the ASHEcon conference.

**CRITERIA:** The criteria are scholarly contributions to health economics, primarily through publications in economics journals. Contributions may be theoretical, empirical, or methodological.

**ASHECON MEDAL**

**DESCRIPTION:** The ASHEcon Medal is awarded biennially to the economist age 40 or under who has made the most significant contributions to the field of health economics.

**ELIGIBILITY:** Recipients must be age 40 or younger on January 1 of the year of the ASHEcon conference. Recipients must hold their primary appointment in an American institution, but need not be citizens of the United States. As a condition of receiving this honor, the recipient must attend the ASHEcon conference.

**CRITERIA:** The criteria are scholarly contributions to health economics, primarily through publications in economics journals. Contributions may be theoretical, empirical, or methodological.

**STUDENT PAPER AWARD**

**DESCRIPTION:** The ASHEcon Student Paper Award honors the student who wrote the best sole-authored paper.

**ELIGIBILITY:** Recipients must be current Ph.D. students or have received their Ph.D. from an American institution. The paper must be sole authored. The paper may be published (or forthcoming) in a peer-reviewed journal. As a condition of receiving this honor, the recipient must attend the ASHEcon conference.

**CRITERIA:** The Awards Committee will select the paper that makes the greatest contribution to health economics. The paper’s contributions may be theoretical, empirical, or methodological.

The Los Angeles County Natural History Museum was founded in 1913 and has one of the world’s most extensive and valuable collections of natural and cultural history with more than 35 million objects.

The NHM is a comfortable 0.5 mile walk from Bovard Auditorium, the location of the Tuesday evening plenary. Some of the exhibits in the museum will be open for participants to see.

Dinner will be served. Participants will receive two (2) drink tickets for the NHM event; a cash bar will be available to purchase additional beverages.

DIRECTIONS TO THE NATURAL HISTORY MUSEUM:
The Natural History Museum is located in Exposition Park at 900 Exposition Boulevard between Vermont Avenue and Figueroa Street, just south of the USC campus. We will have volunteers available to help guide attendees on the 10-15 minute walk from the Tuesday evening plenary at Bovard Auditorium to the Museum, across the street from the USC campus.

If you would prefer to drive, free parking is available at the museum. The address is 900 Exposition Blvd. Los Angeles, CA 90007. Driving directions to the museum parking lot will be available at the registration area in Argue Plaza and at www.nhm.org.

MEDICAL SERVICES AND EMERGENCY NUMBERS
USC’s Department of Public Safety (DPS) provides an active presence on the campus and in the surrounding community.

It is important to remember that the USC campus is located in the heart of LA, a vibrant, diverse, modern city with all the benefits and issues of an urban lifestyle. Please use general precaution and be aware of your surroundings when you explore the area. For more information and general safety tips, please visit the DPS website at http://capsnet.usc.edu/department/department-public-safety

IN THE EVENT OF AN EMERGENCY
All students, faculty, staff and visitors are encouraged to report any emergency situation, crime, or suspicious behavior to DPS. Crimes in progress, suspicious or threatening behavior, or other emergencies can be reported to DPS at (213) 740-4321. Non-emergencies can be reported to DPS at (213) 740-6000.

TRANSPORTATION

University of Southern California is easily accessible by major freeways if you choose to rent a car as well as by the new Metro Expo Line and public buses.

THE METRO

The Metro website (http://www.metro.net) offers information on bus and rail fares as well as procedures for paying. The LA Metro rail system requires loading fares on a TAP card which are purchased at self-service TAP vending machines; you then tap your card as you enter the station. Information about how to use the TAP cards is available on the website as well. REGULAR, SINGLE RIDE FARES ARE $1.50.

THE METRO EXPO LINE (light rail) will connect you to Downtown LA, Hollywood, The South Bay, Long Beach, Pasadena and dozens of points in between. The Metro website offers a user-friendly trip planner.

USC TRANSPORTATION DEPARTMENT

The USC Transportation department (http://transnet.usc.edu/) provides guides to Metro Downtown and Expo Line Destinations as well as information on which bus lines and Metro Light Rail lines link to campus.

CAMPUS MAPS

There is a campus map included in this program. The Interactive Campus Map (http://web-app.usc.edu/maps/) provides interactive information about the campus including locations of libraries, dining, buildings and directions. It is helpful to know either the full name or abbreviation of the building you are trying to find when using this map.

PARKING AT USC:

ON-CAMPUS

Daily parking is available in parking garages on the USC campus at a rate of $10.00 per day or $35.00 per week. Hourly parking is also available.

OFF-CAMPUS

Four- and two-hour metered parking is available on Figueroa Street and Jefferson Boulevard adjacent to campus.

MEMBER MEETING
The Commonwealth Fund is a private foundation that aims to promote a high performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society’s most vulnerable, including low-income people, the uninsured, minority Americans, young children, and elderly adults.

Visit us on the Web at www.commonwealthfund.org to see our latest reports, issue briefs, blog posts, infographics, interactive features, and data center.

Affordable, quality health care. For everyone.
The California HealthCare Foundation works as a catalyst to fulfill the promise of better health care for all Californians. We support ideas and innovations that improve quality, increase efficiency, and lower the costs of care.

PROGRAM AREAS

- **Innovations for the Underserved** seeks to reduce barriers to efficient, affordable health care for the underserved.

- **Better Chronic Disease Care** focuses on improving clinical outcomes and quality of life for Californians with chronic disease.

- **Market & Policy Monitor** promotes greater transparency and accountability in California’s health care system.

- **Health Reform & Public Programs Initiative** supports the implementation of national health reform and advances the effectiveness of public coverage programs.

Powerful

It's not just a word, it's the strength of the data.

Millions of discharges, thousands of hospitals, and dozens of clinical and non-clinical data elements make the Healthcare Cost and Utilization Project (HCUP) a powerful resource. Sponsored by the U.S. Agency for Healthcare Research and Quality, HCUP is a family of health care databases, software tools, and products for advancing research. As the largest collection of multi-year, all-payer, health care data available to researchers, HCUP provides the tools for cutting-edge health care research and policy analyses that can make a difference in the Nation's health care. Rely on the power of HCUP to help answer your most important questions.

The Gordon and Betty Moore Foundation is pleased to support the American Society of Health Economists 5th Biennial Conference and two of our partners, Peter Buerhaus, PhD, RN, FAAN and Joanne Spetz, PhD.
The MIT Press is proud to announce the launch of its newest journal, the American Journal of Health Economics, the official journal of the American Society of Health Economists (ASHEcon).

The American Journal of Health Economics (AJHE) will provide a forum for the in-depth analysis of institutional health care systems and individual health behaviors. The journal will permit high-quality review of topics, both theoretical and applied, which cannot be examined as fully by general economic publications.

The articles appearing in AJHE will be authored by scholars from universities, private research organizations, government, and industry. Subjects of interest include competition between private health insurance providers, the impact of the Affordable Care Act, pharmaceutical regulation, medical device supply, the rise of obesity, the influence and growth of aging populations, and much more.

“Excellence in journals publishing happens when you have a growing field of national importance such as health economics research, an outstanding group of editors, a thriving and committed professional organization such as the American Society of Health Economists, and an experienced publisher with a complementary program such as the MIT Press,” says the Press’ Director, Ellen Faran. “We look forward to this exciting new partnership with ASHEcon.”

All ASHEcon members will receive the journal as part of their membership. The journal’s editor, Frank Sloan, is the President of ASHEcon and the J. Alexander McMahon Professor of Health Policy and Management and Professor of Economics at Duke University. Dr. Sloan hopes AJHE will both “promote the field of health economics and promote the professional goals” of ASHEcon members.

The inaugural issue of the American Journal of Health Economics will appear in the first quarter of 2015, and the journal is now accepting submissions. More information about AJHE can be found at mitpressjournals.org/ajhe.

The data presented is from the WCRI study, *Impact of Banning Physician Dispensing in Opioids in Florida*, which was authored by Dr. Richard Victor and Vennela Thumula.

The study examines changes in opioid use among newly injured workers before and after the implementation of House Bill 7095, which banned physician dispensing of stronger opioids in Florida, effective July 1, 2011.

The study analyzes whether data is consistent with patients of physician-dispensers receiving more opioids than necessary.

Notes: The percentage of injured workers receiving a prescription was for prescriptions received between July and December 2010 for the pre-reform sample and July and December 2011 for the post-reform sample. The study sample comprised Florida workers with dates of injury between July and September 2010 in the pre-reform group and July and September 2011 in the post-reform group.

The measures reported were case-mix adjusted.

Health Economics and Health Policy at Vanderbilt

Vanderbilt University is committed to building its health economics and health policy programs through new faculty hires and innovative university-wide initiatives. Multiple health economists work in the Department of Economics, which currently offers a PhD field in health economics. The newly established Department of Health Policy in the School of Medicine, which offers an MPH degree, is aggressively recruiting faculty in order to expand its research portfolio and establish a PhD program in health policy. Together, the Departments of Economics and Health Policy offer a well-regarded Health Economics and Policy seminar series. The Vanderbilt Law School offers a Law and Economics JD–PhD program with a focus on health law and policy. The Owen Graduate School of Management, a national leader in the field of health care management, is currently recruiting a senior faculty member to fill an endowed chair in health care. At the university-wide level, Vanderbilt’s strategic plan has identified health care solutions as one of four key growth areas and an institutional priority. These activities are taking place in a city that is one of the nation’s centers for health care innovation: Nashville and the region around it are home to more than 280 health care companies, offering hospital services, insurance products, wellness programs, claims processing, and more. We invite you to find out more about these and other exciting developments in health economics and health policy at Vanderbilt by talking with one of our many faculty and graduate students who will be at the conference!
